1Q 2017/18 PERFORMANCE

The Group recorded consolidated total revenue of THB 3,271.1mn in 1Q 2017/18. This represented an increase of 84.8% YoY or THB 1,501.5mn from THB 1,769.6mn in 1Q 2016/17. The revenue growth was largely from (i) an increase in revenues from installation and construction services and train procurement service under concession agreement of THB 1,224.2mn mostly from the provision of E&M works and the train procurement service for the Southern (Bearing to Samut Prakan) and Northern (Mo Chit – Khu Kot) Green Line extensions, (ii) a growth in service income of THB 308.1mn from higher revenue across all business units; Mass Transit, Media, Property and Services), (iii) an increase in interest income of THB 157.3mn mainly from (a) financial institutions due to higher cash balance from proceeds of BTSC debenture (issued on 10 November 2016), (b) loans to related parties and (c) receivables under concession agreements mainly from the provision of E&M works and the train procurement service for the Southern (Bearing to Samut Prakan) and Northern (Mo Chit – Khu Kot) Green Line extensions. However, the increase was partially offset with (iv) no gain on change in status of investment of THB 207.4mn from fair value measurement in Master Ad Public Company Limited (MACO) which was recorded in the first quarter of 2016/17.

Total operating revenue¹ in 1Q 2017/18 grew by 100.2% YoY or THB 1,556.9mn to THB 3,110.3mn largely as a result of higher operating revenue from all business units (Mass Transit, Media, Property and Services), which increased by 196.9%, 36.8%, 3.2% and 1.7% respectively. The growth was chiefly from a recognition of services revenue of the provision of E&M works and train procurement service for Southern and Northern Green Line extensions as well as higher consolidated revenue from acquisitions in the Media business and organic growth of existing media in particular. Revenues from the Mass Transit, Media, Property and Services businesses accounted for 64.1%, 27.3%, 4.7% and 3.9% of total operating revenue, respectively.

Total consolidated expenses amounted to THB 2,333.2mn in 1Q 2017/18, an increase of THB 1,350.0mn or 137.3% YoY mainly from (i) an increase in cost of installation and construction services and train procurement service under concession agreement of THB 1,110.2mn, which are largely costs related to the provision of E&M works and the train procurement service for the aforesaid Southern and Northern Green Line extensions, (ii) an increase in cost of services of THB 149.4mn largely due to higher operating costs chiefly related to Media businesses and (iii) an increase in selling and administrative expenses of THB 92.3mn mainly from the increase in SG&A expenses related to consolidating newly acquired Media businesses.

Operating costs increased by 208.8% YoY to THB 1,832.0mn largely from recognising costs for the provision of E&M works as well as the train procurement service for the Southern and Northern Green Line extensions as well as costs related to the consolidation of the newly acquired Media businesses. As operating revenue increased more than operating costs, operating gross profit⁶ grew 33.1% YoY to THB 1,278.3mn. Operating gross profit margin decreased to 41.1% from 61.8% in 1Q 2016/17, mainly due to the higher revenue contributions of services income for the provision of E&M works and train procurement, which have lower margins. Group operating EBITDA⁷ increased

by THB 280.5mn or 44.1% YoY to THB 916.6mn. Operating EBITDA margin, however, decreased to 29.5% in 1Q 2017/18 from 40.9% in 1Q 2016/17 mainly from the aforesaid lower operating gross profit margin.

Other recurring revenue fell by THB 14.5mn or 7.9% YoY to THB 168.7mn. The decrease was mainly from a combination of (i) an increase in share of net loss from associates/JVs (not including share of profit in BTSGIF) of THB 109.6mn, being partially offset with (ii) the increase in interest and investment income of THB 68.3mn from higher cash balance and loans to joint venture companies.

Finance costs increased by 233.7% YoY or THB 205.8mn to THB 293.9mn primarily from the interest expense of BTSC debenture (THB 181.5mn) together with the increase in interest expense of bills of exchange. Pre-tax recurring profit⁸ for this quarter was THB 606.7mn, a slight decline of THB 3.7mn or 0.6% from 1Q 2016/17.

Reported income tax expense was THB 171.7mn, versus THB 150.0mn in 1Q 2016/17. The 14.5% YoY increase was primarily from higher pre-tax profit compared to last year, after excluding an untaxed gain on change in status of investment in MACO. Taking into account all the aforesaid transactions, the Group's consolidated net profit stood at THB 437.5mn (decreasing 30.3% YoY) and profit attributable to the equity holders of the Company was THB 404.6mn (decreasing 26.2% YoY) predominantly from higher finance costs this quarter as well as no gain on change in status of investment in MACO which occurred in the same period last year. The net profit margin attributable to the equity holders of the Company⁹ in 1Q 2017/18 was 12.1% (versus 27.9% in 1Q 2016/17).

⁸ Recurring profit calculated based on the operational performance of 4 BUs and other associates and joint ventures as well as other recurring items which are interest income and other recurring items (before MI)

SEGMENTAL PERFORMANCE

MASS TRANSIT BUSINESS

Total Mass Transit revenue was THB 1,992.9mn, a significant increase of 196.9% YoY, primarily due to the recognition of services revenue and interest income for the provision of E&M works and the train procurement service for the Southern and Northern Green Line extensions as well as higher O&M revenue.

As a reminder, under the terms of the contract signed on 28 June 2016 with Krungthep Thanakom (KT) - a wholly owned subsidiary of the BMA (Bangkok Metropolitan Administration). BTSC is pre-financing E&M provision and installation. KT will repay the costs of E&M works in a lump sum amount after four years.

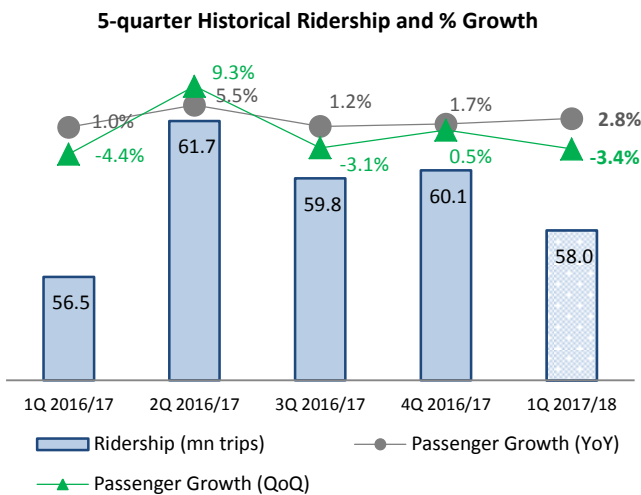

O&M revenue (excluding interest income from train procurement) rose by 13.5% or THB 56.4mn YoY to THB 473.7mn. The increase was mainly attributable to the contractually agreed increase in the operating fee of the existing Green Line – Sukhumvit extension and Silom extension together and the additional operating fee of a newly opened station (E15: Samrong station which is the first station of Southern Green Line extension). The interest income from the provision of E&M works and the procurement of train also rose from the previous year (up 138.5% YoY or THB 45.1mn) to THB 77.7mn chiefly as a result of the aforementioned provision of services.

Fare-box revenue of the core network continued to grow at 2.2% YoY or THB 35.0mn to THB 1,621.6mn mainly driven by an increase in ridership (up 2.8% YoY to 58.0mn trips), but partly offset by a slight decrease in average fare (drop 0.6% YoY to THB 27.9 per trip). Despite the increase in fare-box revenue, **share of net profit from investment in BTSGIF** decreased slightly at 1.5% YoY or THB 3.4mn to THB 217.9mn.

More commentary on Core Network performance can be found in *1Q 2017/18 BTSGIF management discussion and analysis*

Additionally, in 1Q 2017/18, the Company recognised **services revenue from the provision of E&M works and the train procurement service** of THB 1.2bn for the aforesaid Southern and Northern Green Line extensions according to progress of work completion.

Cost of Mass Transit revenue increased in-line with the increase in revenue. This increased by THB 1,117.9mn or 508.9% YoY to THB 1,337.6mn largely from the recognition of cost of services related to the provision of E&M works and train procurement service for the aforesaid Southern and Northern Green Line extensions. The operating EBITDA margin declined to 33.3% from 68.3% as a result of a higher contribution of the abovementioned services which have a lower margin. Excluding the provision of E&M works and train procurement service, the operating EBITDA margin of the Mass Transit business stood at 68.2% (versus 68.3% in 1Q 2016/17).

MEDIA BUSINESS

Our Media revenue increased by THB 228.5mn, or 36.8% YoY to THB 849.0mn in 1Q 2017/18 against a backdrop of double digit decline in overall advertising spend (down 11.3% YoY to THB 26,185mn in 1Q 2017/18). The growth was mainly attributed to the higher consolidated revenue from acquired businesses and the robust performance of Transit Media. VGI consolidated Master Ad Public Company Limited (MACO) – Outdoor Media since June 2016.

OOH Media includes Transit, Outdoor and Office Building and Other Media. OOH media contributed 89% of total Media revenue or THB 753.4mn. Revenue from OOH media increased by THB 211.7mn, or 39.1% YoY attributable to the full quarter of MACO (Outdoor segment).

Transit Media revenue rose by 22.8% to THB 517.5mn largely as a result of price increases, especially in our static media network. Moreover, this business segment has benefited from synergies enabled by Rabbit Group through a “Station Sponsorship” campaign on selected BTS stations. **Outdoor Media** revenue was THB 169.6mn, increasing 207.9% YoY from THB 55.1mn in 1Q 2016/17 mainly due to the full quarter consolidation of MACO (vs one-month consolidation in 1Q 2016/17). In the same period, MACO also benefitted from the consolidation of Multi Sign Company Limited (Multi-Sign), which was acquired in October 2016. Meanwhile, **Office Building and Other Media** segment recorded revenue at THB 66.3mn, remained unchanged YoY. During this quarter, VGI successfully added 4 new contracts to its office building portfolio - in-line with the year-end target to acquire 10 additional building contracts.

Digital Services Business contributed 11% of total Media revenue or THB 95.6mn. Revenue increased by THB 16.8mn or 21.3% YoY. The growth was mainly due to the increase in revenue generated from (i) project management fee, card issuing fee and sales of Rabbit cards and (ii) an increase in insurance commission revenue as well as banner advertising from Rabbit Internet.

Cost of Sales increased 47.1% YoY from THB 199.6mn to THB 293.5mn, primarily due to the consolidation of the abovementioned newly acquired businesses. As costs increased at a faster rate than revenue growth, operating EBITDA margin for Media in this quarter declined to 49.6% from 53.0% in the previous year.

More commentary on Media business can be found in *1Q 2017/18 VGI Global Media's management discussion and analysis* <http://vgi.listedcompany.com/misc/MDNA/20170802-vgi-mdna-1q20172018-en.pdf>

PROPERTY BUSINESS

Property operating revenue in this quarter was THB 146.5mn, increasing 3.2% YoY from THB 141.9mn in 1Q 2016/17 due to the overall improvement in the operating performance of our commercial properties.

Residential Property revenue declined by THB 3.8mn or 36.2% YoY to THB 6.6mn in 1Q 2017/18 from lower housing unit sales. In June 2017, we have launched “The Base Phetkasem 29”, the first condominium project for the year under BTS-SIRI Joint Venture with total project value of THB 1.9bn. The Company recognised a share of loss from BTS-SIRI JVs, of THB 113.2mn (compared to THB 59.9mn in prior year) largely from selling and marketing expenses related to more launched condominium projects than in the same period last year.

Commercial Property revenue rose by 6.3% YoY or THB 8.3mn to THB 139.8mn. The increase was chiefly from higher hotel and Thana City Golf & Sports Club revenue this quarter. The Company recognised a share of loss from our associate, U City, of THB 59.0mn (compared to THB 31.8mn in prior year) largely from non-recurring acquisition related costs of a hotel business in Europe.

Operating costs increased by THB 3.8mn or 4.2% YoY to THB 94.7mn and in-line with the increase in revenue. Property SG&A expenses also increased by 7.9% YoY or THB 6.0mn to THB 82.0mn.

SERVICES BUSINESS

Services business revenue increased by THB 2.1mn or 1.7% YoY to THB 122.0mn. The growth was mainly due to an increase in the revenue generated from HHT construction Co., Ltd. (HHT), which increased by THB 14.9mn.

Operating costs increased by 27.9% YoY or THB 23.2mn to THB 106.3mn largely from an increase in costs of construction. SG&A expenses amounted to THB 79.7mn, an increase of THB 1.4mn or 1.8% YoY. Key SG&A items were mainly related to ChefMan restaurants.

(Bayswater).

MANAGEMENT OUTLOOK

In our **Mass Transit** business, KT temporarily extended the O&M contract of the Bus Rapid Transit (BRT) until 31 August 2017 to facilitate the bidding process for a new concessionaire under a 6-year farebox concession contract. Under the new terms, the concessionaire will be entitled to the farebox revenue and commercial revenue received from the BRT in return for operating and maintaining the system.

The first batch of 22 4-carriage trains (from a total order of 46 4-train carriages ordered on 23 May 2016) is expected to be delivered by May 2018. We now target an opening of the first Northern Green Line extension (N9) at Ladprao Intersection with a length of around 2km to within March 2019. Regarding the Pink and the Yellow lines, once the MRTA has handed over the required land, construction of the main lines can begin immediately, taking up to 39 months to complete. We estimate that full operation for both lines to be by early 2021.

Progress has been made regarding the system's single-track bottleneck at Saphan Taksin (S6) station. The Department of Rural Roads, responsible for the bridge running parallel to the line has approved the design for double-tracking the station. The solution involves increasing the width of the outer two sides of the bridge to retain the same number of lanes, while freeing up space for the additional track and platform. The construction period is estimated to take up to 2-3 years upon mutual agreement among all involved parties. Once complete, the bottleneck would be eliminated, benefiting passengers across the system and the Company by allowing for an increase in the frequency of trains and number of trains.

Having completed EIA study and public hearings for the construction of Suksa Witthaya (S4) station, BTSC will submit these to BMA and BMA will further forward these to the Office of Natural Resources and Environmental Policy and Planning (ONEP) for consideration. Upon approval from ONEP, the BMA will issue a construction permit that would allow construction of the station to begin, which is expected by the end of 2017 or early 2018, taking up to 18 months to complete. Total investment is estimated at THB 650mn, split 50:50 between BTSGIF and third party.

In our **Media** business, VGI expects to continue to benefit from synergies from the acquisition of Rabbit Group as well as the uplift from the improving macroeconomic outlook in Thailand. VGI reiterated its FY 2017/18 revenue target of THB 4,000mn. *Further information about VGI's targets for FY 2017/18 can be found at: <http://vqi.listedcompany.com/misc/presentation/20170405-vqi-target.pdf>.*

In our **Property** business, we still expect to launch at least 3 more projects totaling around THB 10bn, following the launch of our first project this year: The LINE Phetkasem 29 worth THB 1.9bn. This fiscal year we expect the JV to turn profitable with a share of net profit of around THB 200mn from transfers of The Line Jatujak – Mochit and remaining units of The Line Sukhumvit 71, adding some uplift to our earnings. Construction of the 194-key hotel at Thana City is expected to be completed by April 2018, taking our directly-owned commercial property portfolio to 371 keys at the beginning of next fiscal year.
